DETAILED ACTION

1. Receipt is acknowledged of the amendment filed 11/03/03.

Specification

2. The specification is objected to because on page 3, line 3, the serial number of the related application is missing. Correction is required.

Claim Objections

3. Claims 1, 25, and 28 are objected to because of the following informalities:

Claim 1, line 8, "the" before "subject" should be changed to --a--. Appropriate correction is required.

Claim 25, line 2, "the" before "remaining" should be deleted.

Claim 28, line 2, "24" should be --18--; line 3, "the same" should be --similar--; and line 5, "the same" should be changed to --the similar--.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 13, and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Lisle et al, US Patent No. 5,969,720.

Lisle et al disclose a data processing system and method for implementing an informative

Art Unit: 2876

container for a filed system comprising: a system 100 having display device 138; a CPU 110, the display device 138 displays information of a filing cabinet 200, the filing cabinet 200 comprises two drawers 202 and 204, each of drawers 202 and 204 may be used to represent a disk drive, a server, a database, a partition, or an equivalent of a directory or any portion of a storage space designated by a user, the drawer 202 comprises a label 214 for indicating the storage space represented by drawer 202. Additionally, drawer 202 comprises a label 216 for indicating an amount of the storage space which is available for use in the portion of the storage space represented by drawer 202. It should be noted that label 214 and label 216 may be used to indicate information desired by a user and are not limited to the functions described above. For example, a user may select a label which indicates a date range for objects stored therein or a label which indicates a content type of the objects, whether audio, text, video, or another application, stored in drawer 202 (see col. 7).

Allowable Subject Matter

6. Claims 18-20 and 23 are allowed.
7. Claims 2-12, 25, 26, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
8. Claims 28-30 would be allowable if rewritten to overcome the objection set forth in this Office action.
9. The following is a statement of reasons for the indication of allowable subject matter: Although the prior art of record teaches a system for addressing and reading data which includes a display unit for displaying information about the information stored in the system, including

Art Unit: 2876

the content information, the type of information, the available space, etc., the prior art of record fails to disclose or fairly suggests all the details, including having the display layer being partially alterable to provide the display, each layer of the storage array unit comprising a plurality of bi-state electrical devices, etc. These limitations in conjunction with other limitations in the claims were not shown by the prior art of record.

Response to Arguments

10. Applicant's arguments with respect to claims 1, 13, and 24 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
